Why Saral PayPack

Work Smarter

Automate boring tasks and increase time spent on strategic tasks. Enable your employees and HR for higher business results.

Compliance Assured

Stay constantly updated with statutory compliance around Saral PayPack your payroll administration will be statutory compliant.

Optimize Resources

Enable online workflows with Saral PayPack. Save on printing costs, labour and plenty of time with automated online processes.

Streamline Tasks

Detect issues relating to payroll and handle them proactively. Pay employees accurately and on time to boost their confidence in the company.

Sit Back and Relax

All the new features, enhancement and any updates will be done automatically to ensure smooth and accurate payroll processing.

Save Money*

A SaaS based Subscription model means no upfront bulk costs. Updates are rolled out without added maintenance costs. And you get to scale up or down as per need.

Stay Connected*

With Saral PayPack, your employees, HR and Payroll departments can access important information & work from anywhere, anytime, on any device. After all it is a 24x7 world!

Support

Have a problem with payroll? Get in touch with our 5 level support and we will handle it for you. We are your trusted partners, not just providers.

Employee Information

Know Your Employee - KYE

Capture more than 400 distinct pieces of information about the employees through built-in functions and maintain personnel data of each employee including classifications, statutes and HR details.

Attendance Management

Easily track and maintain employee's attendance, leave and holidays with Bio-metric integrations. You can also create customized leave policies according to your organizational needs.

Employee Self Service

Employees can use the employee self service portal for applying leaves, advance, reimbursement and IT declaration. The managers can view these applications in real-time and approve or reject on-the-go.

Benefit Management

Salary Management

Sara PayPack has the ability to create and define earnings and deduction for salary as per your industry on CTC basis. Also define benefits such as Basic, DA and arrears to be calculated automatically using expression editor. No more manual calculation!

Statutory Compliance

Maintaining statutory compliance is now a breeze. PF and ESI calculation, e-return facility and state-wise PT calculation is all built within the system. Calculate Bonus /Ex-gratia, Gratuity as per the Indian Labour Law and easily generate reports.

Reimbursements

Maintain different types of reimbursements such as medical, LTA, attire, petrol, books & periodicals, newspaper & communication according to company policy and in such a way that it complies with the Income Tax Law.

Estimate TDS

Easily estimate monthly TDS on Salary Income. Automate TDS declaration like Rent paid details and investments by enabling employees to provide their details in ESS and use that for TDS calculations.

Standing Instruction

Manage EMIs such as loan, advance, insurance and group insurance along with interest calculation wherever applicable. Also adjust the loan repayment with receipt entry provision.

Report

Generate Payslips in multiple formats. Also generate existing reports for salary, increment, arrears, reimbursement and bank statement in the solution or create your own report with our report writer for any selected information.

Security

Audit Trail

Maintain security with the audit trail feature which tracks the user activity from the various logins. Get to know the changes made and the user who has made them.

Maker and Checker*

Reduce the risk of wrong data entry with the use of a unique maker-checker concept in Saral PayPack. This ensures that the data at all level has the approval of the authorized person.

User Role Management

Create multiple user logins who can access the application from anywhere, at any time. Provide permissions for the users, based on hierarchy, so that they have access to selected modules and screens.
